

For the 2025/2026 school year our school's learning focus is:	Taking a deep dive into how we can simultaneously boost student resiliency and Literacy skills.
The data that supports the need for this school learning focus is:	Gaps in student Literacy skills as evidenced in school wide assessments, report cards and FSA scores. Staff observations of student behaviours.
Actions that the school will take to achieve the goals of our school learning focus include:	Staff learning in ways to identify and target student learning needs and ways to develop resiliency through Literacy; gathering materials for targeted interventions; trial ways to deliver support and increase learning success.
The intention of these actions is to make the following difference(s) for learners:	For all learners to develop enhanced Literacy skills and be stronger students through open-mindedness, willing to take risks, face challenges and persevere in their learning, as well as being
